

# Quality

## High quality standards are key to our success

### Products

Our products meet the highest quality standards.

We place high priority on quality in all regards - in the materials used, in production facilities and manufacturing processes.

We choose our suppliers and partners carefully.

Our quality management system helps to evaluate and improve processes continuously, and to provide the highest possible quality to the customer.

In order to verify that the standards are kept, audits are performed on a regular basis.

### Company

Our understanding of quality extends to all areas of our business.

Multi-Contact has been certified according to ISO EN 9001 since 1993.
